

Our Mission and Customer Benefits:

LogixPath software brings latest technologies to Product and Service Providers to enable them to operate businesses with better methodologies and higher efficiency. Benefits:

- Efficiently manage business elements involved in the lifecycle from sales orders to product/service fulfillment with LogixPath software application.
- Effectively follow through the product production and service execution processes to ensure they are executed as planned.
- Discover and control the costs and qualities during the product production and service execution.
- Enable traceability for regulatory and ethics compliances and customer mandates.
- Enable users to manage businesses anywhere at anytime.

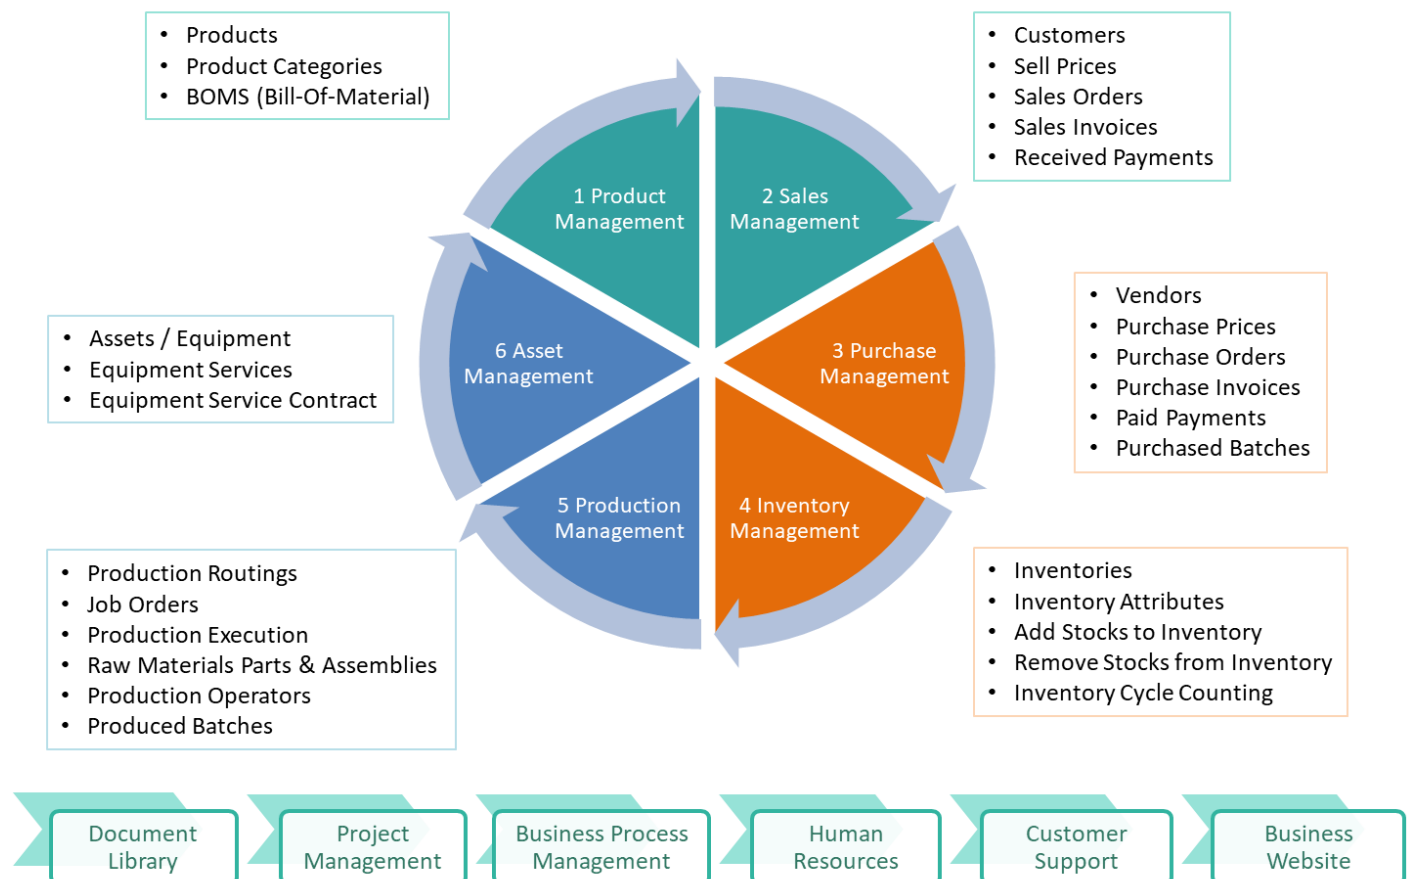

Targeted Customers:

Product and service providers, such as manufacturers, service providers, and distributors.

Software Access:

- Via web browser running on PC, tablets, or smart phones.
- Use LogixPath Mobile APP installed on Android or iOS smart phones.
